REMARKS

25X1X

1. No air unit was stationed at the WERDER (N 55/Z 53) airfield which was observed from the train. Its hangars, landing field and buildings were in good condition.
2. A single-engine high-wing monoplane, similar to the Fieseler Storch, landed at the field shortly after 8 a.m. There was a large motor vehicle park, almost exclusively with passenger cars.

25X1A [REDACTED] Comment:

The report confirms that no air unit is stationed at the field. The plane observed landing was presumably a Yak-14.
